1

ANSI Z97.1- 2015 Standard

ANSI Z97.1-2015 Standard

- Approved by ASC committee; March 2015
- Approved for publication by ANSI; September 2015.
- Available for purchase at <http://www.ansiz97.com/purchase>
- Request for interpretation:
 - 1) Vacuum Insulating Glazing (Final product test)
 - 2) Vacuum Insulating Glazing (Edge considerations)
 - 3) Vacuum Insulating Glazing – (Reconsider)
 - 4) Chemically Strengthened Glass – (CS Safety glass)

Meetings/Schedule

- Last **Committee** meeting was held November 1-2, 2017 in Charlotte, NC
- Last **Steering Committee** meeting; August 20th, 2018 by Telcon
- Next Full meeting: 2019
- Ballot to re-affirm standard 2Q 2019
- Target publication date 2020

Leadership Information

- Secretariat: GISC
 - Jeff Haberer (Chair); Ilona Schmidt; Shayne Merryman
- Committee Officers:
 - John Kent (Chair); Mark Cody (Vice-Chair); Julia Schimmelpenningh (Secretary)
- Steering Committee:
 - Mark Cody (AGC); John Kent (General); Urmilla Sowell (NGA/GANA); Rick Wright (OCBE); Julia Schimmelpenningh (Eastman)

3

Membership Information

- 25 primary members
- Committee status: **IN BALANCE**
- No committee fee for 2018
- Member positions available (pending successful membership ballot):
 - o User
 - o General Interest
 - o Testing Lab
 - o Prof. Society/Trade Org.
 - o Fabricator/Distributor
 - o Component Manufacturer (FULL - 2 applications pending)
- New membership request form at www.ansi297.com

4

ANSI Z97.1 TI-2018.1017.001 Chemically Strengthened Glass

- **Request:** Change the definition of tempered glass to include other methods of tempering ...
- **Interpretation:** Create definition of Chemically Strengthened Safety Glass

Glass of any shape that has been subjected to a special chemical treatment process to produce surface compressive stress such that when broken using the test methods in ANSI Z97.1 meets the fragmentation criteria in ANSI Z97.1

- **Rationale:** ... standard is not intended to be exclusive ... After review of submitted data ... a distinction between Chemically Strengthened glass ... and Chemically Strengthened Safety glass ...
