

The Voice of the Glazing Industry

THE VOICE OF THE INDUSTRY

BEING A MEMBER OF GANA MEANS BEING A PART OF SOMETHING BIGGER. TOGETHER, WE ARE THE VOICE OF THE GLASS AND GLAZING INDUSTRY.

GET THE TOOLS YOU NEED

GET INFORMED: GANA NEWS

Timely, relevant communication is an essential component of today's business world. Being a part of GANA means being informed on the latest news in the glass and glazing industry.

- Glass Reflections: Weekly Email News Brief
- USGlass Magazine : GANA's Official Publication
- Social Media: Twitter, LinkedIn, Facebook
- GlassNation Blog
- Glass Informational Bulletins addressing critical issues
- Monthly Safety Bulletins

Over the years, I have gained insight into the standards development and building code process, learned about new market applications for laminated glass, and had a great opportunity to network with others involved in the fabrication of laminated glass. - Valerie Block, Kuraray America

GET A VOICE: CODES & STANDARDS

Have a direct say in building and energy code issues through GANA's participation in the Glazing Industry Code Committee (GICC). Be a part of developing and revising consensus standards and guidelines that directly affect your products. GANA's General Counsel keeps you up-to-date on the changes in energy and environmental regulations as well as building code changes and state or federal legislation or regulations that may affect your business.

I believe if your company wants to develop and stay on top of new technology in the glass business, you need to be a part of GANA

-Sylvain Maillet, Prelco, Inc.

"Over the years, GANA and it's Divisions has been an invaluable source of information for me regarding almost anything related to the use of glass, and for meeting the people who fabricate raw glass into it's many end uses. For newcomers to the glass industry, I always recommend that one of the very first things they should do is to join GANA, read the various technical manuals published by the Divisions, and attend the GANA seminars."

- Bob Lang, Billco Manufacturing, Inc.

GET RESOURCES: EDUCATION & EVENTS

GANA maintains technical excellence with a strong technical staff and the industry's leading technical publications. Referenced by the government, architects, specification writers and the industry, these publications enhance knowledge and application of glass and glazing systems.
