

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary Handout

Provider:	Glass Association of North America /National Glass Association	Length:	1 hour
Program #:	ID0002	Credits:	1 LU
Program:	Multi-Cavity Insulating Glass Units	HSW/Sustainability:	Yes

Description: A study on the design, construction and application of multi-cavity glazing, as well as the ideal use for performance achievements.

Learning Objectives:

- Identify the drivers that lead to the selection of multi-cavity glazing.
- Understand the design and construction of multi-cavity glazing.
- Understand the challenges of multi-cavity glazing constructions.
- Select the correct multi-cavity construction to meet certain performance characteristics.

A/V Needs: Electrical power, screen and computer projector for the PowerPoint presentation. (The CES facilitator supplies the laptop and laser pointer.)

How Taught: The CES facilitator utilizes a PowerPoint presentation to provide an in-depth overview of what is decorative glazing, its uses and applications. The presentation concludes with an overview of additional educational resources and relevant test standards and specifications

Target Audience: Architects, specifiers, owners and other design professionals in the commercial market. The ideal audience size can be one on one or over 50. The program meets every experience level with time designed into the program for questions and answers.

Facilitator Qualifications: All NGA/GANA CES facilitators have been trained on CES guidelines and presentation skills. In addition, the facilitators are individuals working within the commercial architectural glass industry, representing the Association.

Costs: There is no cost to bring this program into your firm or chapter meeting.
